

**Resume-Tailoring Prompt:** Demonstration of how a student used ChatGPT to adapt their German Resume to a specific job posting, referencing attached documents:

The screenshot displays a chat interface with three document uploads at the top: 'Mechanical\_Internship.pdf', 'Stellenausschreibung Siemens Pflichtpraktikum.docx', and 'Lebenslauf 2025.pdf'. Below these, a user named 'Evelynne' has sent a message asking for a tailored German resume. The chatbot, 'RoleBot Resume Writer', is shown in a response box with a text input field containing 'Ask anything...'. The interface includes standard chat controls like a dropdown menu, a status bar with the bot's name and handle, and icons for actions like copy, share, and search.

**Document Uploads:**

- Mechanical\_Internship.pdf (Document)
- Stellenausschreibung Siemens Pflichtpraktikum.docx (Document)
- Lebenslauf 2025.pdf (Document)

**User Message:**

**Evelynne** 3 minutes ago

Please alter my German Lebenslauf so that it fits the position that I am applying for. I will attach my current Lebenslauf and the position description, as well as my English resume so that you might take information from it. Please use German conventions and proper grammar for my new Lebenslauf. Please take your time and creating the best possible Lebenslauf that reflects the job description and adheres to German conventions for Lebenslauf.

**Chatbot Response:**

**RoleBot Resume Writer** 3 minutes ago

Ask anything...

**RoleBot Resume Writer** @role-resumewriter
