Prompt 1: Creating Learning Targets Aligned to Assignments

"I am teaching an online [course name] for college students. My goal is to create clear, student-friendly learning targets that align with the major assignments and assessments in the course. Please generate learning targets that are:

1. Written in 'I can...' statements for students,
2. Connected directly to higher-order thinking (Bloom's Taxonomy),
3. Accessible for students with diverse learning needs (plain language, clear verbs), and
4. Explicitly tied to assignments such as essays, projects, or quizzes.

Here are my planned assignments so far: [list assignments]. Based on these, create 4–6 learning targets that will guide students through the course."
